Newsletter n°1 November 2019

### A transnational partnership:

The **Connected Learning** project involves: United Kingdom, Italy, Germany, Sweden, Bulgaria and Cyprus. The consortium favours a transnational approach to the subject.

### The Connected Learning: an innovative learning tool to boost ICT and the development of digital competences among European youth.

Connected Learning targets young people, especially the marginalised ones and allow them to identify learning opportunities in an easy and friendly way wherever they are. The aim of the project is promoting the development of digital learning and routes to create a sustainable youth oriented solution to map, assess, provide and validate the various learning opportunities: a useful tool both for young people both for formal and non-formal learning providers.

The project will produce five results:

- The Methodology for mapping, providing and validating formal and non-formal learning as part of digital youth work.
- The Web portal and mobile App.
- The Digital Learning Suite (Framework, Teaching and learning Material validation)
- The Tool Kit.
- The Strategy Pack for Upscaling: From the local to National and EU level

### Connected Learning @ Youth Work

Is a 30 months project co-financed by the European Union by the Erasmus+ Programme.

**Connected Learning** aims at developing a new mobile application and online platform to allow young people to explore the education providers and their courses, mapping therefore their 'learning routes'.

## THE 2<sup>ND</sup> TRANSNATIONAL PROJECT MEETING

Second meeting @ Blagoevgrad (Bulgaria) hosted by Association EUNI PARTNERS

During the 2<sup>nd</sup> project meeting in beautiful Blagoevgrad, in South-western Bulgaria, which took place in October 2019, the partners discussed the results of the questionnaires, the national reports and finalised the status of the national index. The consortium fruitfully set the stage for the next steps of the project. Stay tuned by visiting the project website!
